We regret to have to announce the death of Pearl's Hill from dengue fever of Conductor A. R. Bain, Army Service Corps. The deceased was unable to attend to his duties on Thursday and Friday last, and died about one o'clock on Saturday morning, at Pearl's Hill. He was married, and leaves a wife and two young children, who, it is expected, have just got home to join him. The sad news of his death will be conveyed to them. He was deservedly popular among his comrades. He was buried on Saturday evening with military honours. Among those who attended the funeral were Captains Trimmed and Linnell, A.O.C., and all the warrant and senior non-commissioned officers on the garrison staff. The wardens of the Prison were well represented. The Rev. S. S. Walker conducted the funeral service.

WO1(Cdr)	S Tolley	Tolley		1940	Senior Conductor, approx 1952. Served at CAD Bramley. Sid Tolley Fund established by RAOC Gazette. INCREDIBLE though it may seem, 'Old Sid' is still serving, his present engagement being a 'Type S' engagement of four years, special authority having been obtained, for this engagement. Upon completion of this four years Conductor Tolley will have some 35 years continuous service with the Corps and will be 69 years of age. Until recently Sid was Chief Clerk to the Commandant of the Army Apprentices School at Arborfield, where he was held in high esteem. He is now serving at O.A.D. Bramley as Battalion Chief Clerk and is one Warrant Officer who, although fit enough, is not being considered for an overseas posting. The present Officer in Records and the writer have both served with Conductor Tolley, the former as his Ordnance Officer at Sandford and the latter as a young R.A.O.C. Clerk at Tidworth and Haulta. They both fully concur with the very nice things said by "Boner" and from a perusal of Sid's documents it would appear that many pre-war Ordnance Officers thought the same. In conclusion may I record an incident in this office quite recently which centred around Sid Tolley. Among many other Stats returns compiled by this office is one submitted half-yearly to A.G. Stats. War Office, showing the breakdown of both dates by years only. The Stats expert had recently received promotion and his handover to the new Stats expert coincided with this half-yearly return. Upon checking the return, the new fellow seeing 'against 1896 was about to let off steam at the clerks compiling the return when the old Stats expert said, "Oh that's alright, that's old Tolley". I remember Sid from Bramley, 1952. The extract is from an RAOC Gazette of 1951. Submitted by Terry Fitzgerald, March 2013

WO1(Cdr)	S Brazier GM	Brazier GM		1964	Cdr Sydney Brazier, The London Gazette of the 7th February 1964 announced that Conductor S. Brazier RAOC had been awarded the George Medal. On the 12th October 1963, Conductor Brazier was a member of a team from Southern Command assembled to advise the Aldershot authorities regarding the removal and disposal of an unknown quantity of No 74 Grenades (Sticky Bombs), some of which had been discovered on top of a steep grass-covered bank close to a barrack area. A total of 20 grenades were carried singly in a sand-filled box to a demolition area and destroyed. An ingenious sanding traverse was constructed around a further 34 grenades which were then destroyed in situ. The task of moving these grenades was hazardous and required a technical skill of the highest order. Note: No 74 Grenades were inherently one of the most dangerous weapons ever produced. These grenades had been in the ground for twenty or more years and were in an extremely dangerous condition. The original storage life was only two years and so the chemical stabiliser must have been quite ineffective and the nitro-glycerine content highly sensitive.

Selected for GM Category Commission in the rank of Captain in 1985 but did not accept. Quote from email I read with interest your article on 'The Modern Day Conductor' in particular your reference to General Sir Michael Gow - Commander Northern Army Group and Commander in Chief British Army of the Rhine and his letter to Maj Gen J Brown, the then DGOS, in June 1981. My appointment prompted that letter. I was appointed Conductor in May 1981 and General Gow saw my letter of appointment from the DGOS. I have photographs of General Gow strapping the badge of rank on my wrist for the first time. He was greatly interested in military history and was a stickler for seniority, precedence and the like. I was General Gow's Superintending Clerk at the time. A small piece of history? I also recall being the 'Senior Conductor' for 2 maybe 3, years although in those days very little mention was made of the pecking order of Conductors. My name was at the top of the entries in the Army List for quite some time. May 2012, Lafferty posted to Headquarters Land Forces Cyprus (HQ LFC). Cdr Kevin Hartley replaced me there in 1985 when I retired. I remained in Cyprus with my family for a few years and I was with the Sultan of Oman's Land Forces for a while before returning to the UK.

WO1(Cdr)	J Morrisroe	Morrisroe	HQ N Comd/HQ 2 Div York	1982	John Morrisroe, Army No. 23318587, Staff Clerk, Promoted to WO1 (SSM) in Nov 1976, appt Cdr RAOC on 1 May 1982 Letter from Major General Jimmy Brown, who was instrumental in changing the rules regarding the appointment of modern day Conductors) notifying me of my appointment. May have been instrumental in rules amendment after representations to RAOC Planning and Records Office on behalf of all Staff Clerks (Superintending Clerks) as the new rules as laid down by Major General Jimmy Brown. By nature of jobs, virtually excluded all WO1's Superintending Clerks from being appointed Conductors. Superintending Clerk to the Chief of the Defence Staff, Admiral of the Fleet, The Lord Lewin. My badge of appointment was presented by Lord Lewin and I had the honour of explaining the origins of the appointment to the most senior person of the Armed Services at that time. Assistant Project Officer for the move of HQ 2 Div (Kohima) from BAOR for the amalgamation with HQ Northern Command. Left the Army on completion of second stint (previously did National Service from June 1956 to June 1958 and rejoined the Royal Army Service Corps in March 1962). Finally left the Army in March 1982 after 22 glorious, never to be forgotten years.
WO1(Cdr)	MA Gallagher MBE	Gallagher	SHAPE Belgium	1983	Michael (Mike) Anthony Gallagher appointed a Conductor in 1983 on arrival at SHAPE in Belgium. PA to Deputy SACDR (Air) Chief Marshal Sir Peter Terry from WO1 God Mead RAOC. Together we visited the OC UK Support Unit to say Farewell and to our surprise were both informed that we had been appointed as Conductors RAOC. My badge of rank caused much interest amongst the foreign military community at SHAPE especially the Americans. I went on to be commissioned and served as OIC Manning Wing B at RAOC Manning and Record Office, SO to CINC UKLF, SO to COS GMA, and finally SO (Late Entry Officers) P810 in Stavropole and then at RLC MCM Division in Glasgow. Left Army 1999. Contributed by Cdr Gallagher.
